6

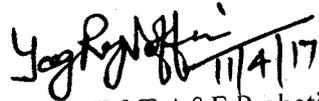

Village:- Butala
Location:- Shop

SDCA:- Rayya
Date of installation:-

Ph. No. 1853-241458
21.01.2015

On an average 60 customers are visiting the Kiosk. To attract more and more customers some effective efforts may be made to achieve the purpose for which subsidy is being given by the Government of India for installing a Kiosk. The kiosk is eligible for subsidy.

On physical verification of kiosks it is observed that the non performance of kiosks is due to lack of awareness among the rural people regarding the availability of internet facility at a nominal cost. For this it is suggested that BSNL itself should initiate and launch publicity drives in the rural areas through announcement in Gurudwaras, Mandirs, Media Advertisements, Road shows, banners, pamphlets etc. so that more and more people are magnetite to use BSNL services and the basic aim of the USOF is achieved.
