On physical verification of kiosks it is observed that the ~~non~~<sup>poor</sup> performance of kiosks is due to lack of awareness among the rural people regarding the availability of internet facility at a nominal cost. For this it is suggested that BSNL itself should initiate and launch publicity drives in the rural areas through announcement in Gurudwaras, Mandirs, Media Advertisements, Road shows, banners, pamphlets etc. so that more and more people are magnetite to use BSNL services and the basic aim of the USOF is achieved.
